RACER™

special stroller

RACER™

special stroller

RACER™ enables carrying of children and adults with limited locomotor abilities. It can be used either in the patient's home and rehabilitation centers. Both stable construction and system of supports make the user feel safe and secure.

Seat design has quite relevant impact on a proper sitting position which corrects the faulty posture and prevents it from deepening. Moreover, rich equipment allows you to Optional*ly adjust the product to individual needs.

RACER™ is especially recommended for walking in rough terrain (e.g. where the sidewalks are uneven or curbs are high).

The process of folding and unfolding is very quick and simple, therefore, transportation and storage do not cause major problems.

New upholstery is made of breathable and easy to clean materials.

Stroller is equipped with Light Grey rims. However there is possibility to change the rim's colour to black.
