Lightweight, umbrella-fold special needs stroller for children and adults. It has innovative BodyPrint™ seat equipped with belts that can easily be adjusted to the patient. The seat can be flat or concave depending on the user’s needs and dysfunctions. Fixed 30° backrest tilt angle (bucket) reduces the pressure on soft tissue preventing bedsores. It also gives you many other benefits.

Except for being convenient and stable, OMBRELO stroller is also handy and easy to maneuver. It is ideal for transporting patients to hospitals whether for treatments or for tests. It is also good for having a long walk in the fresh air. Very simple and easy to use.

Adjustable swing-away FlipFlap™ footplates make it easy to climb and get off the stroller. The product is available in 4 sizes, the biggest of which is designed for users who weight up to 120 kg. Have you got special requirements or look for excellent stability? Our wide range of accessories makes it easy for anyone to find the right product they are looking for.

OMBRELO™ accessories

Safety

OMO_001 LED lights
Front and rear LED lights for increased safety.

OMO_002 Patient lift belt
Robust and ergonomic design as well as high durability facilitates daily care of the patient.

OMO_011 Qstraint lap belt

Positioning

OMO_101 Thigh abduction belts
They can be easily attached to the chair by use of Velcro straps. Their use allows to keep legs in abduction and also prevents the patient from slipping off of the device.

OMO_102 Pelvic belt
Wide belt equipped with "HOLD AND PULL™" system. It provides better stabilization in the device.

OMO_113 Trunk stabilizing belt
It acts as an additional trunk protection which helps to keep a proper sitting position. The belt is fastened by use of Velcro straps and its size can be adjusted to the user.

OMO_107 Calf belt
It provides additional protection for lower limbs. Mounted on the front side limits the legs extension. Mounted on the rear side limits the legs bending.

OMO_114 H Harness
It acts as a trunk stabilizer. HOLD&PULL™ system makes it easier to adjust the vest to the patient body. You can quickly detach the vest if necessary.

OMO_115 Head-neck support
Perfectly stabilizes the head. Indicated for people with limited head control. You can mount it at different height.

OMO_121 Lumbar support
It allows better stabilization of the lumbar back.

OMO_124 Abduction block
Shaped abduction block provides with correct seating position. Can be easily removed.

OMO_125 4 points safety vest
It acts as a trunk stabilizer. Wide range of adjustment helps to fit it to the user's needs. Equipped with HOLD&PULL™ system.

OMO_126 Abduction-adduction thigh belts
They can be easily attached to the chair by use of Velcro straps. Their use allows to keep legs in abduction and also prevents the patient from slipping off of the device.
OMBRELO™ accessories

OMO_132 Elastico headrest
Covered with thermo-active foam easily fits the shape of a head. Offers more comfortable support and better stabilization. Attached in the place of a standard headrest.

OMO_133 Firm headrest made of foam
Made of polyurethane foam. Provides with basic support of the head.

OMO_135 Rigid side supports
Longer and more complete stabilization of the lower limbs indicated for patients with excessive leg abduction.

OMO_136 Thighs belt
Helps maintain a proper sitting position. Velcro-adjustable straps as well as ergonomic design allow for a better fit for the patient.

OMO_160 Octagon™ Headrest
Equipped with an internal aluminum 'fin' covered with soft foam. Effectively stabilizes the patient’s head through greater precision of the shape adjustment. The headrest cover is made of elastic, durable and dirt-repellent fabric and is certified Oeko-Tex 100.

OMO_162 Dynamic ankle stabilizers (FP-22)
Dynamic FlexPoint® ankle stabilizers provide great support when stabilizing the user’s feet. Incorrect positioning of the feet, despite appropriate stabilization of the pelvis and chest, makes it impossible to keep the correct sitting position.

OMO_163 Anatomic thigh abduction belts

OMO_133 Firm headrest made of foam
Made of polyurethane foam. Provides with basic support of the head.

OMO_135 Rigid side supports
Longer and more complete stabilization of the lower limbs indicated for patients with excessive leg abduction.
