

HIPPO+™

Special needs stroller

Class I Medical Device

**This is a medical device.
Use it in accordance with the user manual or the label.**

Description

We are presenting new and improved special stroller **HIPPO+™** which was equipped with many interesting and useful solutions. It is still perfect stroller for daily care with supreme positioning features.

Equipped in standard with swivel front wheels and reversible seat unit for your child to face you or the world. Bigger adjustable canopy as well as leg cover protect from wind, rain and sun and, more to the point, they enable rest irrespective of weather conditions. Shock absorbers soften the vibration during riding and 5-point safety belts connected with side supports provide your child with correct position and safety.

Reach standard and optional equipment help you customize the stroller for your child's needs. It is highly recommended for the youngest up to 2 years.

**Height cannot be the main parameter while choosing the product size.

Note: Measurement tolerance range is +/- 1 cm / ½ in.
Note: Approximate values, depending on the product configuration.

Accessories

Lumbar pad

It allows better stabilization of the lumbar back.

Reduction set consisting of additional seat

The cushion narrows down the seat. It is made of elastic foam trimmed with soft material.

Headrest with belt

Mounted in place of the standard headrest. It can be precisely adjusted to the user's needs. Soft head belt additionally stabilizes the forehead.

Sandals stabilizing feet and ankles

They protect and stabilize the ankle joint. They are made of elastic material, recommended for users with increased muscle tone. They can be used with or without shoes.

Tray

ABS thermoformable tray, perfect for recreation and during rehabilitation. It is also ideal for work and having meals.
